

- Enhanced strength and durability
- ZMD[®] Zero Maintenance Damping[®]
- Pivoting mud flap brackets
- Reduced weight

The Lightest Tandem Slider in the Industry

Hendrickson introduces the latest in air slider technology for the van and refrigerated trailer markets with VANTRAAX[®] ULTRAA-K[™] - the next generation of air slider systems. Building on years of design expertise, ULTRAA-K is engineered with an optimized strength-to-weight ratio making it stronger than comparable standard and heavy duty 40K slider models in the market today. It is the lightest slider system in the industry by nearly 100 pounds.

Engineered for Toughness

Engineered for toughness from the structural design to the finished hot wax coating, Hendrickson backs the ULTRAA-K system with a limited ten-year structural corrosion warranty* unmatched in today's marketplace. Hendrickson engineered several advancements to the ULTRAA-K slider box including:

- Reinforced slider main rail
- Overlapping frame brackets
- Optimized cross members, gussets and diagonal "K" braces

Elite System Featuring Exclusive Technology

ULTRAA-K is standard with industry exclusive and patent-pending features that further elevate its elite status including:

- ZMD[®] Zero Maintenance Damping[®] technology
- Pivoting mud flap brackets
- Protected height control valve

* Contact your local Hendrickson representative for complete warranty terms, conditions and limitations.

The World Rides On Us[®]

VANTRAA[®] ULTRAA-K[™] Features and Benefits

Improved Air Spring Supports

- Increases strength and durability
- Easier access to air spring mounting studs

Diagonal "K" Bracing

- Prevents racking
- Increases strength and slider life

Overlapping Frame Brackets

- Stronger attachment
- Improves durability and hanger life

Optimized Slider Rail

- Optimized structural geometry
- Stronger than VANTRAA[®] 40K HD model
- Reduces weight

Height Control Valve Mounting

- Ensures more accurate ride height settings
- More secure location protects against road debris

Hat-Section Cross Members and Gussets

- More rigid design
- Longer slider life

Exclusive ZMD[®] "Shockless" Ride Technology

- Uniform damping levels over life of the trailer
- Reduces overall suspension maintenance
- Superior ride quality and driver comfort
- Enhances cargo protection
- Reduces risk of roadside tickets and CSA violations

Pivoting Mud Flap Brackets

- Helps prevent mud flap damage
- Reduces component maintenance

New SURELOK[®] System Design

- Eliminates stop bolt
- Less component wear

Value-Added Options

- RTR[®] READY-TO-ROLL[®] wheel-end options reduce weight, enhance durability and lower maintenance
 - **HXL3[®] Hendrickson Extended-Life 3-year System[™]** features a three-year limited on-highway warranty*
 - **HXL5[®] Hendrickson Extended-Life 5-year System[™]** features a five-year limited on-highway warranty*
 - **HXL7[®] Hendrickson Extended-Life 7-year System[™]** features a seven-year limited on-highway warranty*
- TIREMAAX[®] PRO tire inflation system helps maximize tire life and maintain peak fuel mileage
- Air disc brakes available

See **TIREMAAX PRO Brochure - L1199**

*Contact your local Hendrickson representative for complete warranty terms, conditions and limitations.

Actual product performance may vary depending upon vehicle configuration, operation, service and other factors.
