TIP300 Bushing Kit

The TIP300 bushing kit (K715386) provides ease and safety of install. The TensionRight washer provides quick and easy installation using common tools without the need of a torque wrench. The TensionRight washer visually shows you when the proper torque is achieved, simplifying installation and increasing labor efficiency.

Features	Benefits
Fastener stays in one piece during install	Safer for installer
Accurate clamp load	Long joint life - no slipping
No specialty tools needed	Lower overall cost
Long life	Fatigue life tests demonstrate that we are equivalent to the OE
